# FENDERS

## Standard Fenders

A comprehensive range of cylindrical fenders with a reinforced attachment eye at each end. Suitable for vertical or horizontal use.

Manufactured from the highest quality UV resistant PVC and class-leading wall thickness. Anchor Marine's fenders are long lasting and durable making them resistant to wear and tear.

\*Please note the fender/boat length are suggestions only.

\*Circumference inflation measurements are moulded into fenders.

Product Code*	Diameter x Length (cm)	Diameter x Length (inches)	Weight Kg	Boat Length* (m)
0061	8 x 27	3 x 10	0.30	< 4
0071	11 x 40	4 x 16	0.60	4 - 5
0081	13 x 45	5 x 18	0.70	4 - 6
0091	15 x 55	6 x 22	1.00	6 - 8
0451	18 x 65	7 x 26	1.50	6 - 8
0101	20 x 80	8 x 32	2.30	8 - 10
0459	23 x 75	9 x 30	2.00	8 - 10
0453	27 x 85	11 x 33	2.90	10 - 14
0111	31 x 91	13 x 36	3.50	12 +

Colours Available: Metallic Silver (MS), Black (BK), Grey (G), White (W), Navy Blue (NY), Royal Blue (RB), Burgandy (BY), Racing Green (RG), Signal Green (SG), Red (R), Fluorescent Orange (FO), Orange (O), Yellow (Y)

\* Add suffix to Product Code to order a specific colour (e.g 0111NY) - see colour chart for more details.

Other Colours are also available - please contact us for more details.

## Bow Fenders

A fender with many uses, of particular interest to those wishing to moor bow-on to marina berths. Two types are offered, 0011 and 0041 are of the bulbous shape with 0041 having the availability of a central through line attachment. 0021 and 0031 have a strap around the middle for secure three-point attachment. Available in white or blue as standard.

Product Code	Diameter x Length x Width (cm)	Diameter x Length x Width (inches)	Weight Kg	Attachment Thru-hole (mm)
<b>Bulbous</b>				
0011	15 x 13 x 28	6 x 5 x 11	0.60	-
0041	31 x 20 x 48	12 x 8 x 19	1.80	12
<b>Slimline</b>				
0021	28 x 10 x 38	11 x 4 x 15	0.80	Strap
0031	38 x 13 x 56	15 x 5 x 22	1.60	Strap

## Ball / Spherical / Heavy duty Fenders / Floats

Popular with commercial users, this robust product is equally suited to function as a fender or float.

Product Code	Length x Diameter		Circumference		Weight kg	Buoyancy kg
	cm	inches	cm	inches		
0315	33 x 38	13 x 15	104	41	1.20	16
0321	40 x 52	16 x 21	127	50	2.60	24
0331	56 x 67	21 x 27	168	66	3.60	50

## Coloured-end Cylindrical Fenders

In order to achieve the classic look, all Anchor Marine's popular sized fenders are available in white with contrasting dark blue ends, the perfect finish to any boat.

Product Code	Diameter x Length (cm)	Diameter x Length (inches)	Boat Length* (m)
0491	11 x 40	4 x 16	4 - 5
0492	13 x 45	5 x 18	4 - 6
0493	15 x 55	6 x 22	8 - 10
0494	18 x 65	7 x 26	8 - 10
0495	20 x 80	8 x 32	8 - 10
0496	23 x 75	9 x 30	9 - 12
0497	27 x 85	11 x 33	10 - 14
0498	31 x 91	13 x 36	12 - 15

## Step Fenders

This handy fender (0043) makes climbing aboard a breeze. The unique three-point fixing ensures a safe boarding whether from pontoon or tender. It can also be used as a roaming fender, especially useful at the bow.

Product Code	Diameter x Length x Width (cm)	Diameter x Length x Width (inches)
0043	43 x 53 x 18	17 x 21 x 7

## Thru-line Fenders

Designed for the attachment line to pass through the centre of the fender, this range allows easy height adjustment and grouping for maximum hull protection. Suitable for vertical or horizontal use, our thru-line fenders feature a reinforced central hole for additional strength and are available in white or blue as standard.

0181WH

0191WH

0461WH

0485WH

## Ribbed Thru-line Fenders

Four additional models which have a special ribbed section down the length of the fender to resist movement along the top side.

Product Code	Diameter x Length (cm)	Diameter x Length (inches)	Weight Kg	Core Diameter (mm)
<b>Thru-line Fender</b>				
0171	10 x 30	4 x 12	0.50	13
0181	18 x 25	7 x 10	0.80	21
0461	18 x 56	7 x 22	1.40	21
0191	23 x 45	9 x 18	1.80	21
0463	23 x 81	9 x 32	2.20	21
<b>Ribbed Thru-line Fender</b>				
0485	18 x 38	7 x 15	0.90	21
0483	23 x 45	9 x 18	1.80	21
0481	25 x 53	10 x 21	2.40	21
0478	38 x 85	15 x 34	4.50	50

## Transom/Corner Fenders

This rugged, easy-to-install fender is designed to give protection to boats with vulnerable transoms. It is especially popular with canal and river users or those in crowded marina situations. These fenders also give good protection when fitted to the exposed corners of marina berths or finger pontoons. Two mounting strips are provided with each unit.

Note: these are a sealed unit and are not re-inflatable.

0207RB

0209WH

Product Code	Length x Radius x Height (cm)	Length x Radius x Height (inches)	Weight (kg)
0201	13 x 10 x 10	5 x 4 x 4	0.90
0207	16/11 x 6 x 7	6/4 x 3 x 3	1.00
0209	16 x 14 x 11	6 x 5 x 4	1.20

## Stern Fenders

Anchor Marine's answer to protecting the vulnerable stern or bow. Anchor Marine's unique stern fender can be roped firmly in place from the safety of the cockpit. It will provide instant protection, particularly when moored end-on in a marina.

0203WH

0203NY

Product Code	Height x Width x Depth (cm)	Height x Width x Depth (inches)	Rope Diameter (mm)	Rope Diameter (inches)
0203	19 x 54 x 24	7 x 21 x 9	8 - 12	5/16 - 1/2

## Chubby and Single Eye Fenders

A range of sturdy fenders for those preferring the rounded shape. The single reinforced eye provides extra strength. Available in six sizes shown in the table. Ideal for smaller boats

Product Code	Diameter x Length (cm)	Diameter x Length (inches)	Weight (kg)	Type
0131	13 x 23	5 x 9	0.30	Chubby

## Canal / Narrow Boat / Slab / Flat Sided Fenders

Specially designed for the narrow and canal boats, these tough inflatable fenders offer excellent protection. The flat sided fender, also known as the slab fender, is an exceptionally strong and hard wearing narrow boat fender made from UV resistant marine grade PVC. As the Anchor Marine slab fender has class leading thickness, it provides the highest level of protection, although measuring only 6cm in depth.

Product Code	Diameter x Length (cm)	Diameter x Length (inches)	Type
0503	60 x 5	24.5 x 2.5	Single Eye
0513	41 x 5	16 x 2.5	Single Eye
0523	43 x 12 x 6*	17 x 5 x 2.5*	Double Eye

# BUOYS & FLOATS

## Standard Range

Product Code Flourescent Orange	Length x Diameter		Circumference		Weight	Buoyancy
	cm	inches	cm	inches	kg	kg
0234	15 x 20	6 x 8	47	19	0.30	15
0244	25 x 28	10 x 11	72	28	0.60	25
0254	36 x 41	14 x 16	113	44	1.60	46
0264	46 x 53	18 x 21	144	57	2.80	60
0274	61 x 66	24 x 26	192	75	4.00	100

## Marker Buoys

A comprehensive range of floats/marker buoys with single thimble attachment eyes. This strong range has unlimited uses, from moorings to lobster pots; you are sure to fulfil your marker buoy requirements. With water-skiers or rowers in mind, we can manufacture in fluorescent orange.

## Niftie Buoys

The niftie buoy was originally designed as a surface marker buoy (SMB) for divers, but has great flexibility and can be employed in a varied range of situations. (Part no. 0487).

## Heavy Duty Range

Product Code	Circumference Diameter (cm)	Diameter (cm)	Buoyancy (kg)	Eye Dia (mm)
A1	102	32	1.23	20
A2	127	40	31.13	25
A3	152	49	60.34	25
A4	190	61	113.09	25

## Pole Buoys

A comprehensive range of fluorescent orange floats / pole buoys with many applications. The pole diameters stated are the maximum that the internal tube in the float will accept. Smaller poles can be accommodated by additional sleeving.

The first three sizes are sausage shaped and the latter five are spherical.

0424SR      0427YW

Product Code	Length x Diameter		Circumference		Weight	Buoyancy	Pole Diameter
	cm	inches	cm	inches	kg	kg	mm
0421	10 x 30	4 x 12	32	13	0.50	1.7	13

0427	61	24	191	76	4.00	100	50

## Rod Mooring Buoys

Rod mooring buoys are a popular choice for open moorings for all types of watercrafts. They are probably the most robust construction available. The case has thick walls reinforced through tube connection. The rod and top eye is solid steel with a forged swivel all heavily galvanised and guided through the buoy with hard wearing plastic bushes at top and bottom.

Product Code	Rod Diameter (cm)	Buoy Diameter (cm)	Buoy Circumference (cm)	Buoyancy
0393	18	32	102	15
0403	18	40	127	31
0404	18	48	152	55
0405	18	61	190	110
0406	18	73	228	204

## Quay Fenders

Two types of quay fenders are available to suit most requirements. Easily fitted with pop rivets or screws, this fendering gives complete protection. A cutaway version 0055 allows for neat fitting to berths with wooden rubbing bands and has a cut-out dimension of 88 x 19mm.

Product Code	Length x Width x Depth		Colour	Weight
	cm	inches		kg
0054	43 x 18 x 8	17 x 7 x 3	White	1.00
0055	43 x 18 x 8	17 x 7 x 3	White	1.00

0054WH

## Pick-up Buoys

Well designed inflatable and rigid mooring pick-up buoys. The inflatable pick-up buoys are available in two sizes and a wide range of bright, easy-to-see colours. The easy-to-grab integral handle is featured at the top, making retrieval by hand or boathook a simple, safe operating. There is also a comprehensive range of rigid mooring buoys available as modular, through-chain and optional pad-eye, offering a tough, long lasting, cost effective solution to most mooring requirements.

Product Code	Circumference Diameter (cm)	Diameter (cm)	Buoyancy (kg)	Eye Dia (mm)
NB00*	47	18	1.2	10

RM150	381	121	N/A	25
RM1100	314	100	150.00	25

## Race Marks

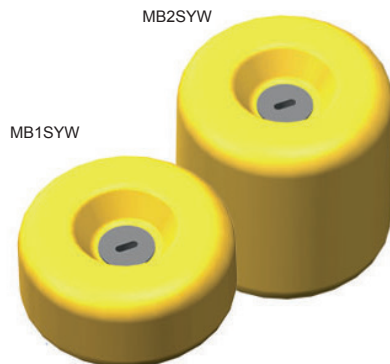

Race marks are available in a range of sizes in different colours, they are highly visible, making them easy to see on the water when racing. Anchor Marine's race marks durability has been proven with the long life spans making them a solid investment for sailing clubs, saving them money in the long term. They can be numbered or lettered to suit your needs and can be branded with a logo or name.

\* these two buoys do not have the same heavy duty rope eye as the NB1 - NB7 range

## Soft Mooring Buoys

Available as a through chain buoy, our range of soft mooring buoys (MB1S and MB2S) offer a tough, long-lasting, cost effective solution to most mooring requirements. The MB1s and MB2S soft mooring buoys have been developed for swing moorings. The outer PVC skin offers excellent boat friendly protection from the mooring buoy, whilst the buoys top recess helps prevent shackle damage to the moored craft.

Product Code	Diameter mm	Height mm	Volume ltr	Air Weight kg	Res Buoyancy ltr	Max Chain kg
MB1S	650	325	106	20	85	56
MB2S	650	625	212	30	182	135

**GET NOTICED  
YOUR LOGO

# MOORING AIDS & ACCESSORIES

## Pot Markers

A handy marker (0431) for fishermen and divers. It has a bright fluorescent orange flag for easy identification, and a non-corrosive plastic rod. Overall length is 1.4m (4ft). It can also be used as a mooring pick-up by sliding the float to the bottom of the rod giving a flag height of approximately 1.4m (4ft) above water.

## Pick-up Bouys

A bright fluorescent orange float with a 135cm (5ins) diameter, a fibreglass mast with a clip to attach a flag or pennant - 0434. It is ideal as a pick-up buoy (160 cm / 63 ins) mast.

## Niftie Markers

This is the dinghy race mark or surface marker buoy (SMB) for diving complete with flag on a 1.21m (4ft) mast - 0490.

Pot Marker (0431)

Niftie Marker (0490)

Pick-up Buoy (0434)

## Rope Clamps

The rope clamp simplifies the job of creating a loop at the end of a multi-strand rope without having to splice, knot or whipe. They're idea for situations when you need a quick reusable splicing solution.

Available in 4 sizes. Colour: White.

Product Code	Line Size
0006	6mm Line
0008	9mm Line
0009	10/12mm Line
0010	14mm Line

## Fender Hangers & Clips

The fender hanger allows you to deploy the fender immediately and move it quickly without needing to untie a knot should the need arise. Simple to use and adjust your fender location.

With fender clips the line can be pre-adjusted to height, place clip over bar or guard rail, thread line through final 'V' cleat and tension. Simple and ready to use and cannot detach with fender movement.

Product Code	Description	Line Size
0309	Fender Clamcleat	6 - 12mm Line
0312	Fender Clips (pair)	6 - 8mm Line
0313	Fender Clips (50)	6 - 8mm Line

## Inflation Kits

This kit enables you to inflate fenders and buoys quickly and restore them to their correct pressures using a simple car foot-pump or garage air line.

- Minimum effort with maximum effort.
- Comprehensive list of components.
- Kit contains: Pump adaptor, Inflating needle, Spare valve, Spare plugs and bung.

Part number: 0310

## Double Action Micro Pump

Essential item to have at all times, to re-inflate fenders but equally useful on bikes or sports balls etc.

- Comes with complete set of adaptors
- Small but powerful
- Easy to store
- Adapts to many situations
- Micro-quick double action pump

Part number 0311

## Choosing Your Colour

Anchor Marines products come in various standard colours depending on what you order. If you would like a product in a different colour, rather than a standard colour, then please call or email us.

When ordering your product, the colour suffix (e.g RB = Royal Blue) will need to be added to the Product Code - this tells us which product you're ordering and the colour you'd like it in, for example 0111RB.

Before you order your product have you thought about branding? Anchor Marine can put your logo or any other writing on most of our fenders. For more information about this service - please call us on 01823 672555 or email us on [info@anchor-marine.com](mailto:info@anchor-marine.com).

## Standard Colour

Standard Colours are shown in the table below for each product. 'Standard' meaning it's a common colour and therefore in stock most of the time.

Other colours are available on request, however can vary in price. Minimum order quantities may apply.

Colour Suffix: Metallic Silver (MS), Black (BK), Grey (G), White (W), Navy Blue (NY), Royal Blue (RB), Burgandy (BY), Racing Green (RG), Signal Green (SG), Red (R), Fluorescent Orange (FO), Orange (O), Yellow (Y)
